### SOFTWARE ENGINEER

Dedicated and skilled Software Engineering professional with expertise in networking, IT support, and web development. Strong foundation in troubleshooting, system administration, and building user-friendly web applications. Passionate about optimizing network efficiency, providing top-tier technical support, and developing responsive websites. Seeking an opportunity to apply my expertise in a dynamic environment while continuously learning and adapting to new technologies.

---

### SKILLS

#### Languages

Python, Javascript, Typescript, Html, Css, SQL

#### Web & Mobile Frameworks

Node.js, React, Next.js, Django, Flask, React Native, Material UI

#### Soft Skills

- Problem-solving & analysis
- Communication & teamwork
- Fast learner, works well under pressure

#### Developer Tools

Git and Github, Vs code, Pycharm, Cursor

---

### PROFESSIONAL EXPERIENCE

HEKIMA ORGANISATION, TZ

April 2025-October 2025

#### WEB DEVELOPER VOLUNTEER (REMOTE)

Contributed to the development and maintenance of responsive websites and digital tools supporting community outreach and education programs. Assisted in building data collection to enhance decision-making and transparency. Collaborated with cross-functional teams to design user-friendly web interfaces aligned with organizational goals.

Accomplishments:

- Contribute to develop and maintain responsive websites and digital tools to support community outreach and education programs.
- Contribute to data collection to improve program decisionmaking and transparency.
- Collaborate with a cross-functional team to design user-friendly web interfaces aligned with the organization's goals.

## **KISII TEACHING AND REFERRAL HOSPITAL**

### **IT ATTACHEE -ICT DEPARTMENT**

**May 2023-August 2023**

Provided hands-on ICT support in a busy hospital environment, assisting with network operations, system administration, and day-to-day technical support to ensure reliable and secure IT services.

Accomplishments:

- Assisted in network setup, configuration, and troubleshooting across hospital departments
  - Provided technical support for hardware, software, printers, and network connectivity issues
  - Supported system administration tasks, including user account creation, access control, and data backups
  - Installed, configured, and updated hospital IT infrastructure, including computers and network devices
  - Diagnosed and resolved technical issues promptly to minimize downtime and service disruption
  - Assisted staff with basic ICT training and system usage support
  - Supported maintenance of secure and reliable network operations in a healthcare environment

## **EDUCATION**

### **SOFTWARE ENGINEERING ESSENTIALS**

Power Learn Project

Feb 2025 -August 2025

### **Kisii University**

Bachelor of Science in Software Engineering

Attained Second Lower Division

September 2020 - May 2024

### **Cardinal Otunga Girls High School**

Kenya Certificate of Secondary Education

Attained a B plain

Feb 2016 - Nov 2019

---

## **PROJECTS**

### **Kisii Teaching and Referral Hospital**

A fully responsive hospital website featuring appointment booking, doctor directories, medical services information, and patient resources. Built with HTML, CSS and JS frontend, Strapi CMS backend, and deployed on Vercel. Live project at <https://ktrh.vercel.app/>

### **Movie web App Finder**

Movie Finder is a sleek, responsive web application that lets users search and explore movies in real-time using the TMDb (The Movie Database) API.

It provides live access to movie posters, titles, ratings, release dates, and descriptions. Built to showcase real-time API integration and smooth user interaction through a clean UI.

Tech Stack: HTML5, CSS3, JavaScript, TMDb API..Live project on <https://moviefinder-4438a9.netlify.app/>
