PROFESSIONAL SUMMARY

Detail-oriented Software Engineer with hands-on experience in **AI data annotation, data collection, and web development**. Proven ability to follow strict guidelines and deliver high-quality datasets through work with AI platforms including Handshake AI and Data Compute. Skilled in capturing, organizing, and validating data for AI model training. Strong technical foundation combined with reliability, precision, and adaptability in remote, task-based environments.

CORE SKILLS

AI & Data Work

- Data Annotation & Labeling
- Image/Data Collection for AI Training
- Metadata Tagging & Organization
- Quality Control & Guideline Compliance

Technical Skills

- Python, JavaScript, TypeScript, SQL
- HTML5, CSS3
- React, Next.js, Node.js
- Django, Flask

Tools

- Git & GitHub
- VS Code, PyCharm, Cursor
- Google Drive & Remote Collaboration Tools

Soft Skills

- Attention to Detail
- Instruction Adherence
- Problem Solving
- Communication & Teamwork
- Time Management in Remote Work

PROFESSIONAL EXPERIENCE

AI Data Contributor (Freelance)

Handshake AI & Data Compute (Remote)
December 2025 – March 2026

- Performed **AI data annotation and collection tasks** following strict guidelines
- Ensured **accuracy, consistency, and compliance** in submitted datasets
- Organized and labeled data using structured metadata formats
- Maintained high-quality output under **pay-per-task models**
- Contributed to improving AI model performance through **reliable data input**

Web Developer (Volunteer)

Hekima Organisation, Tanzania (Remote)
April 2025 – October 2025

- Developed and maintained responsive web platforms
- Built tools to support **data collection and reporting**
- Collaborated with cross-functional teams to improve usability
- Designed user-friendly interfaces aligned with organizational goals

---

IT Attaché – ICT Department

Kisii Teaching and Referral Hospital
May 2023 – August 2023

- Provided technical support across hospital departments
- Assisted in network setup, troubleshooting, and maintenance
- Supported system administration (user access, backups, security)
- Installed and configured IT infrastructure
- Reduced downtime by resolving technical issues efficiently

PROJECTS

Influencer Collaboration Platform

https://creator-connect-hub-one.vercel.app/

- A micro-influencer marketing platform that connects brands with authentic creators (1K–10K followers) for impactful marketing campaigns.

Tech Stack

- Frontend: React 18, TypeScript, Vite
- Styling: Tailwind CSS, shadcn/ui components
- Backend: Supabase (Auth, Database, Storage, Real-time)
- State Management: TanStack React Query
- Routing: React Router v6
- Animation: Framer Motion

Movie Finder Web App

https://moviefinder-4438a9.netlify.app/

- Real-time movie search using TMDb API
- Focus on API integration and UI/UX responsiveness

EDUCATION

Bachelor of Science in Software Engineering
Kisii University
2020 – 2024
Second Class Lower Division

Software Engineering Essentials
Power Learn Project
Feb 2025 – Aug 2025
