Professional Summary

Detail-oriented Software Engineering graduate with hands-on experience in ICT support, computer networking, and software development. Supported network connectivity and resolved technical issues during an ICT attachment at Kisii Teaching and Referral Hospital. Enhanced technical support and customer service skills through volunteering. Equipped with programming, database management, and troubleshooting expertise, ready to contribute effectively to ICT operations.

Professional Experience

Help Desk Volunteer, *Trinity Driving School* 05/2026 – 11/2026

- Provided first-level technical assistance to staff and users.
- Assisted users with system navigation, technical enquiries and general IT challenges.
- Identified, documented and escalated technical issues requiring further assistance.
- Supported the use of digital systems, office technology and computer equipment.
- Assisted in resolving basic hardware and software issues to facilitate smooth daily operations.

AI Data Contributor, *Data Compute* 12/2025 – 03/2026
Remote

- Performed AI data annotation and collection tasks following project guidelines.
- Organised, labelled and validated datasets to maintain accuracy and consistency.
- Conducted quality checks to ensure submitted data met required standards.
- Applied attention to detail and problem-solving skills when handling structured data.

Web Developer – Volunteer, *Hekima Organisation* 04/2025 – 10/2025
Tanzania (Remote)

- Developed and maintained responsive web platforms using modern technologies.
- Built user-friendly interfaces and digital tools supporting data collection and reporting.
- Collaborated with remote teams to implement technical requirements.
- Used Git and GitHub for version control and collaborative development.

ICT Attachee, *Kisii Teaching and Referral Hospital (KTRH)* 05/2023 – 08/2023
ICT Department

- Provided first-level technical support to hospital staff across different departments.
- Assisted in network setup, connectivity troubleshooting and basic network maintenance.
- Installed, configured and troubleshot network printers and computer workstations.
- Installed and maintained computer hardware, software and IT equipment.
- Supported hospital information systems and resolved basic software-related issues.

- Assisted with user account management, access control and basic information security practices.
- Monitored workstation performance and resolved technical issues to minimise downtime.

Education

Software Engineering Essentials, *Power Learn Project* 02/2025 – 08/2025

Bachelor of Science in Software Engineering, *Kisii University* 2020 – 2024
Second Class Lower Division

KENYA CERTIFICATE OF SECONDARY EDUCATION, 02/2016 – 11/2019
CARDINAL OTUNGA GIRLS HIGH SCHOOL BUNGOMA
B PLAIN GRADE

Technical Skills

Networking & IT Infrastructure
Computer networking fundamentals, LAN/WAN fundamentals, TCP/IP, network connectivity troubleshooting, network printer configuration, workstation setup, hardware maintenance and basic network support.

IT Support & Systems Administration
Help desk support, hardware and software troubleshooting, operating system installation, user account management, system maintenance, technical documentation, data backup and basic information security.

Programming & Development
Python, JavaScript, TypeScript, SQL, HTML5, CSS3, React, Next.js, Node.js, Django and Flask.

Tools & Technologies
Git, GitHub, VS Code, PyCharm, Cursor, Microsoft Office, Google Workspace and Supabase.

AI & Data Management
Data annotation, data collection, labelling, metadata organisation, data validation and quality assurance.

Technical Projects

Influencer Collaboration Platform
https://creator-connect-hub-one.vercel.app/
- Developed a web platform connecting brands with micro-influencers for marketing campaigns.
- Implemented authentication, database operations and real-time functionality.
- Technologies: React, TypeScript, Vite, Tailwind CSS and Supabase.

Kisii Teaching and Referral Hospital Web Application
https://ktrh.vercel.app/
- Developed a responsive hospital web platform that digitizes access to healthcare services, including doctor directories, online appointment booking, medical services, career opportunities, and hospital projects. Integrated a self-contained administrative dashboard that enables hospital staff to manage doctors, departments, services, job vacancies, patient bookings, and media content in real time. The platform features interactive forms, search and filtering, data synchronization, JSON backup and restore, and a mobile-friendly interface.
- Technologies: HTML5, CSS3, JavaScript (ES6+), LocalStorage, Font Awesome, and Vercel.

Professional Competencies

- Problem-solving
- Teamwork
- Time management
- Customer service
- Willingness to learn
- Communication
- Analytical thinking
- Adaptability
- Attention to detail
